# Pepper II™

- For one or two players
- Select from four skill levels

*Plays like the PEPPER II™ arcade game!*

## GAME DESCRIPTION

There's plenty of fasten-ating action in Coleco's PEPPER II™ from Exidy™. Guide your Pepper angel up the track. It's like a zipper! Zip all the tracks around a room, then zip an entire maze! You can zip through four different mazes, then try four more, only this time the tracks can disappear!'

But PEPPER II™ is still more tricky. Roaming Eyes rush after you from every maze exit. A Zipper Ripper unzips all the tracks that don't surround rooms. What's a poor Pepper angel to do? Enclose a room containing a pitchfork or a magic box and briefly change into an Eye-catching devil! The fun can get only wilder as this crazy-maze game zips on!

## GETTING READY TO PLAY

- Make sure the COLECOVISION™ console is connected to TV and power supply is plugged into the console. Then plug the power supply into a 110/120 volt AC outlet.
- TV should be on and tuned to the same channel as the Channel Select Switch on the console.
- To play one-player PEPPER II™, use the controller in Port 1 (the rear jack). To play two-player PEPPER II™, use both controllers.
- **ALWAYS MAKE SURE COLECOVISION™ UNIT IS OFF BEFORE REMOVING OR INSERTING A CARTRIDGE.** Turn Off/On switch to On after cartridge is inserted.

## USING YOUR CONTROLLERS

**NOTE:** For a one-player game, use the controller plugged into Port 1. For a two-player game, Player 1 uses the controller plugged into Port 1; Player 2 uses the controller plugged into Port 2.

1. **Keypad:** Keypad Buttons 1–8 allow you to select the Game Option you want to play. Pressing \* after a game allows you to replay the same Game Option; pressing # after a game allows you to return to the Game Option screen.
2. **Control Stick:** Pushing the Control Stick in any of four directions (up, down, left or right) causes Pepper to move in the direction selected.

**NOTE:** Side Buttons are not used in PEPPER II™.

## HERE'S HOW TO PLAY

**NOTE:** If you are playing a two-player game, players take turns. Player 1 begins, and each turn lasts until the player's Pepper is eliminated.

### Choose your challenge.

Press the Reset Button. The Title screen appears on your TV. Wait for the Game Option screen to appear. It contains a list of game options, numbered 1–8.

**Skill 1** is the easiest level, suitable for beginners.

**Skill 2** action is faster than Skill 1, but not as demanding as the arcade game.

**Skill 3** plays much like the arcade game.

**Skill 4** is more challenging than the arcade version!

Select a game option by pressing the corresponding number button on either controller keypad.

## Zippping down the track.

Pepper zips to the first intersection and stops. Push the Control Stick in the direction you want Pepper to go. Pepper won't move through a turn unless you push the Control Stick in the direction of the turn. To zip down a new track, push the Control Stick just as Pepper reaches an intersection. Pepper moves fast. You move fast, too!

## Zip a track, zip a room!

You earn points each time Pepper reaches an intersection. As Pepper speeds along a fresh track, the track zips up! When Pepper zips all the tracks around a room, the room fills with a colorful pattern and you earn **more** points. But watch where you're going! Pepper **unzips** zipped tracks when they don't fully enclose a room.

## Gonna gitcha!

You've had a few seconds to adjust. Now the Roaming Eyes enter the maze. Don't touch them! They eliminate Pepper on contact. See that super speedy green character (Skills 2-4

only)? That's the Zipper Ripper, sworn to unzip all the tracks that don't fully enclose a room. Nasty! Keep clear of the Zipper Ripper, too, because he'll eliminate your Pepper angel.

### **A devilish idea.**

Can't stand to be chased? Enclose a room containing a pitchfork and turn the tables on your pursuers! The tracks change color, the music plays and angel Pepper briefly changes into a Pepper devil. Devil Pepper eliminates every pair of Roaming Eyes it catches, and you earn points! Plus, the Zipper Ripper can't move while Pepper's devilish. If it's in your way, run right over it!

### **Whoa!**

When those few moments of victory are used up, the music stops and the tracks change color again. The Roaming Eyes and Zipper Ripper will be looking for revenge. So be clever. After those few devilish seconds, keep your distance!

### **Watch the magic box.**

See that room in the center of the maze? Sometimes there's a pitchfork in it. Other times there's a little green box. Enclose this room while the box is displayed and angel Pepper becomes a devil again. But when Pepper changes back, the Zipper Ripper quits the maze for a short time.

### **Bonus prizes.**

What's a safety pin or a hammer doing in some of the rooms? They're bonus prizes. Each time you enclose a bonus prize room, the bonus prize is displayed in the Bonus Prize Indicator. You earn 910 points times the number of bonus prizes you've earned in the game!

### **Next maze.**

Don't like the maze Pepper's in? There's an exit on each of the maze's four sides. Zip out the exit and presto! Pepper enters a new maze with new bonus prizes, pitchforks and a magic box. Oh yes, the Roaming Eyes and Zipper Ripper will join Pepper shortly!

## Back so soon?

If you return to a maze right after leaving it, almost nothing about the maze changes. The Roaming Eyes and Zipper Ripper are waiting for you. However, all the zipped tracks that didn't fully enclose a room are unzipped.

But if you wait a few seconds before returning, your opponents are gone! Zipped tracks that didn't fully enclose a room are unzipped again. But now you've got time to zip while the Roaming Eyes and Zipper Ripper await their cues!

## Speed, speed, speed!

Try to complete the maze as quickly as possible. The longer you take, the faster your opponents go!

## Enclose all the rooms.

When you enclose all the rooms in a maze, you win more bonus points. When you enclose all the rooms in all four mazes in a play level, you earn Super Bonus points.

Now the game gets serious! In the next play levels, the tracks can disappear, leaving only the intersections and your memory to guide you! But life has some pleasant surprises. Now when you enclose the magic box room, all the Roaming Eyes leave the maze. And in a matter of moments, the Zipper Ripper leaves, too!

## Starting over.

Press \* to replay PEPPER II™ Game Option that you have been playing. Press # to go back to the Game Option screen.

**NOTE:** The Reset Button on the console "clears" the game memory. It can be used to start a new game at any time, and can also be used in the event of a game malfunction.

## SCORING
